

## ENERGY CONNECTIONS CANADA (ECC)

ECC brings together all participants in the Canadian energy pipeline industry to ensure our industry exceeds Canadian's expectations concerning safety and safe delivery of our energy products, environmental stewardship, quality, social responsibility, GHG reduction, indigenous engagement, workforce development and innovation. We are Canada's energy pipeline forum and are dedicated to achieving performance excellence through member and partner collaboration.

### DELIVERING VALUE

During these energy transformation times, ECC is committed to helping our members derive the greatest value possible from their membership. By volunteering their firms' time and expertise members help to shape and deliver leading edge improvements in the pipeline industry. Member companies also have full access to our library of resources that support the best practices in our industry. And because we believe in growing a national pipeline community, we offer several major events annually where our member companies meet, connect and share ideas and opportunities with their peers from across the country.

In 2023 our Strategic Priorities are: Engagement, Knowledge Exchange and Innovation. Contact us to get a our complete Value Proposition Document.

### WHO WE ARE

We represent the entire value chain of companies that enable energy pipelines to transport products to market. Our members are vital components to the success of the pipeline industry and we believe that our collective voice can implement change and improve the industry. Our members come from all industries that contribute to pipeline innovations, design, construction, operations, inspection, safety and maintenance.

### WHAT WE DO

We work together to share ideas, develop solutions, promote research and advocate on behalf of the pipeline industry. Our goals are to provide a forum for members to collaborate on improving performance, reputation, safety, reliability, efficiency, technology and environmental responsibility. Our membership participates in five work groups to meet these goals.

**Our Vision:** A national community of engaged, transparent, world class organizations committed to sustainable and safe pipeline delivery of energy product to the benefit of all Canadians and the world.

---

## BUILDING COMMUNITY THROUGH EVENTS

ECC hosts a number of large events throughout the year. These events are an opportunity for all members to hear from government and industry leaders, learn about pipeline issues from various stakeholder viewpoints, share ideas and best practices, understand regional perspectives and support the local supply chain. These events include:

- Spring and Fall ECC Member Meetings
- Spring Safety Roundtable
- Quality Summit
- Three Minutes of Fame (2x/year)

## IMPROVE THE INDUSTRY: GUIDANCE DOCUMENTS/PROJECTS

ECC's develops guidance documents and projects that are run by a number of highly active steering committees. These committees are made up of members from every sector of the pipeline industry. They offer a unique opportunity to understand the issues from a variety of industry perspectives.

Collaboration is key to unlocking meaningful and relevant solutions for the pipeline industry include those from working with our Regulators. By working together in this direct way, member companies can truly make a difference in how the industry operates and optimizes. All reports, guidance documents and other relevant publications are located on a members only SharePoint site.

## PAST & CURRENT PROJECTS INCLUDE:

- Facility Inspector Certification
- Environmental Inspector Guidelines
- Safety and Quality Seminars
- Hydrogen in Pipelines Research
- Specialized Workshops
- Construction Best Practices
- Indigenous Guiding Principles
- Data Analytics
- Knowledge Transfer
- Mentorship
- Attainable Energy Transition
- Pipeline Innovation Roadmap

## BECOMING A MEMBER

Applications are accepted throughout the year and cost is based on the size of your company's Canadian operations. For more information please contact Judi Pagonis at [jpagonis@energyconnectionsCanada.com](mailto:jpagonis@energyconnectionsCanada.com)
